

Data Flow Diagrams and User Stories

Developed by – Minu Antony

Introduction

This document describes the data flow and user stories for the AI-Powered Lead Generation System developed using Salesforce Agentforce.

Level 0 Data Flow Diagram

Customer/Sales Representative → AI-Powered Lead Generation System → Lead Database → Reports & AI Summary

Level 1 Data Flow Diagram

Capture Lead → Validate Lead → AI Lead Scoring → Generate AI Summary → Notify Sales Representative → Store Lead Data

User Stories

- As a Sales Representative, I want AI to prioritize leads so I can focus on high-value prospects.
- As an Administrator, I want configurable lead scoring rules.
- As a Manager, I want reports and dashboards to monitor sales performance.
- As a Customer, I want my information handled securely.
